ΕΡΓΑΣΤΗΡΙΟ ΥΓΙΕΙΝΗΣ ΚΑΙ ΕΠΙΔΗΜΙΟΛΟΓΙΑΣ

UNIVERSITY OF IOANNINA

MEDICAL SCHOOL

DEPARTMENT OF HYGIENE & EPIDEMIOLOGY

UNIVERSITY OF IOANNINA, IOANNINA, 45110, GREECE

Call for Expression of Interest “Research Fellow Positions in Epidemiology and Evidence Synthesis”

General Job Description

The Department of Hygiene and Epidemiology at the University of Ioannina School of Medicine invites expressions of interest for two Research Fellows.

The Fellows will be involved in exciting research initiatives within the Department including projects in clinical, molecular and environmental epidemiology and systematic reviews which offer the opportunity for meaningful professional growth, mentoring, and achievement. Successful predoctoral candidates will be encouraged to follow a PhD path within the Department. The post will support level-appropriate opportunities for training, career development and collaboration with various European research groups (workshops, conferences and networking activities). The main place of work will be the Department of Hygiene and Epidemiology at the University of Ioannina, the post can be full-time or fixed-term, the duration will be 12 months (with a possibility of extension to 24 months depending on performance), the minimum contract duration will be 6 months, and the annual gross salary will be €20,000 - €25,000.

The collaborative efforts where the Fellows will be included are the [EU-WISH Joint Action](#), the [Bladder Cancer Evidence Map](#) embedded within the Cancer Intervention and Surveillance Modelling Network (CISNET), the [Healing Roots](#) project, and the [ARTEMIS European University](#).

General Description of the Department

The Department of Hygiene and Epidemiology was founded in 1979 and its internationally-recognized expertise is on research methodology, evaluation of epidemiologic bias and evidence synthesis methods. The citation impact of the department’s publications is among the highest in Europe across any scientific discipline.

Qualifications

Necessary:

- MD degree or an MSc or PhD in Epidemiology or Biostatistics or Data Analytics or Population Sciences
- Excellent written and verbal communication skills in English
- Ability to work independently and collaboratively within a multidisciplinary team.

Preferred:

- Relevant research experience in evidence synthesis, health policy, infectious diseases epidemiology, risk modelling, cancer epidemiology, refugee health, mental health, or environmental health
- Experience in drafting research papers and policy documents
- Strong analytical and problem-solving skills
- Competency in statistical software (Stata, R) will be highly appreciated.

Applications should be sent to Professor Evangelia Ntzani (entzani@uoi.gr) and should include a CV in English, contact details for two academic or professional referees, and a one-page cover letter with a personal statement describing suitability and motivation. For more information and applications please contact Professor Evangelia Ntzani at entzani@uoi.gr.

Closing date: September 15, 2024
